

## The ACA Advantage

ACA is a recognized leader in data management, reporting and consulting to the behavioral health and human services sector.

We've built our reputation on a comprehensive understanding of the challenges facing Counties, Behavioral Health Managed Care Organizations and Government Agencies as they navigate a myriad of programmatic rules and regulations.

ACA offers a full range of HIPAA compliant data management, technical and consulting solutions to transform complex requirements into the simple, integrated processes and data tools on which our clients rely.

And, we pride ourselves on building strong, collaborative relationships to ensure that our products and services meet the unique needs of each client.

### Compliance is Critical ...

Risk Analysis. Data Breaches. Encryption. Cloud Computing. Bring Your Own Device (BYOD). As human services agencies shift toward electronic records and data integration, the landscape of privacy and security of this sensitive information is changing rapidly.

Keeping up with HIPAA Privacy and Security rules is essential to ensure that you're in compliance and able to minimize the risk of costly data breaches.

### Our Services ...

#### Risk Analysis

A comprehensive Risk Analysis is the first step in your agency's HIPAA compliance efforts. We will assist you in conducting a Risk Analysis using NIST guidelines. Next, we will work with you to formulate a complete compliance plan tailored to your needs, based on the results of your Risk Analysis.

#### Documentation

Federal HIPAA Audits are ramping up, and documentation is key to demonstrating compliance. We'll work with your agency to develop and maintain current Privacy and Security policies and procedures aligned with your agency's specific environment.

#### Contact us today!

For more information, contact us at **610.359.1210** or [info@acainc.com](mailto:info@acainc.com)

#### Training

People are usually the weakest link when it comes to privacy and security. We help foster adherence to your HIPAA policies and procedures by providing complete training to new staff, and ongoing refresher training on an annual basis for everyone.

#### Consulting

We partner with you to tailor our services to meet your unique needs. We work with County IT staff and vendors to achieve solutions that meet your compliance goals and respect the financial constraints of County and Governmental Authorities.
